

World Down Syndrome Congress

An Invitation to Brisbane

Preparations are well under way to deliver an educational and informative event that brings together leading international experts and advocates in a broad range of fields, as well as people with Down syndrome and their parents and carers to network and learn from each other. The Organising Committee is also preparing an exciting social program and performances to make this a once in a lifetime event not to be missed.

Brisbane, and Queensland is an exciting place to visit, with great weather and direct access to Australia's top tourist attractions making it an ideal destination for touring before and after the Congress.

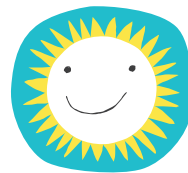

We look forward to seeing you in Brisbane!

Angus Graham, OAM
Congress Co-Chair

Rhonda Faragher, AO
